## About the School:

The Institute for Islamic Education (IIE) was founded in 1994 by the Muslim Community Centre, Abuja which is a non-profit and non-governmental organisation. It was originally established as the community education programmes unit of the Centre, it was later changed into an Institute in 2008.

From a humble beginning, the IIE is now becoming quite popular, with nearly 300 students, fourteen teaching staff and 2 administrative staff. It is among the most popular institutions offering such programmes in the Federal Capital Territory, Abuja.

The all-inclusive nature of studies attracts many students, who often look for additional values beyond the study of academic subjects, like understanding the true call of Islam, its ideals and principles.

The Institution has three (3) sections, which are;

1. CHILDREN ISLAMIC EDUCATION SECTION
2. ADULT FEMALE SECTION
3. ADULT MALE SECTION
